

# PETITION

**To the Town of Hiles Town Board, Forest County, Wisconsin  
By the People of the Pine Lake Protection and Rehabilitation District  
July 7, 2018**

**WE the residents and property owners surrounding Pine Lake in Forest County, who comprise the Pine Lake Protection and Rehabilitation District, a legal entity formed by the Forest County Board, do hereby petition any and all members of the Town of Hiles Town Board to institute a clear, public, written policy on the management of the Pine Lake Dam with the objective of making Town of Hiles management of the lake level and water flow of the Wolf River more transparent to not only lake property owners and the Pine Lake Protection and Rehabilitation District Board of Directors, but also to all the many people affected by increased and decreased water flow along the Wolf River. The dam lies on Pine Lake Road on the southern terminus of the lake.**

This petition is important because the Pine Lake Dam has a direct impact not only the water level of Pine Lake, but it also manages the water flow of the Wolf River of which Pine Lake is the headwaters.

To achieve our request for transparent cooperation, we specifically request the following:

- Mandatory attendance by at least one Hiles Town Board member at all quarterly Pine Lake Protection and Rehabilitation District meetings and its annual meeting,
- Advance warning and reasonable explanation of ANY action to change the level of Pine Lake to the Chairman of the Pine Lake Protection and Rehabilitation District,
- Maintenance of the lake level at elevation 91 feet, Public Service Commission datum, as per the 1959 ruling of the Wisconsin DNR.

Respectfully submitted by:

**The Pine Lake Protection and Rehabilitation District Board:**

- Terry Kloehn, chairman \_\_\_\_\_
- Mark Ferris, member \_\_\_\_\_
- Jim Kurzynski, member \_\_\_\_\_
- Mary Pieschek, secretary \_\_\_\_\_
- Mary Sprenger, treasurer \_\_\_\_\_

**And property owners:**
